

ON-SITE BACKUP SOLUTIONS READY FOR YOUR WORST CASE

SAFE

- On premises
- New and changed files automatically backed up every night.
- Restore multiple versions of past files
- Backup networked or mapped drives
- Can also backup workstations
- Uses commonly available hardware and software

FAST

- Schedule daily backups, and let Windows automatically backup while your computer is not in use
- Incremental backups save time and ensure backups are lightning fast
- Faster in recovery than Cloud backups and restore your entire server.

EASY

- Backup both open and locked files
- Simple interface
- Backup sets are custom built, usually backup entire server.
- Compatible with Windows 10, 8.1 and 7 as well as Windows Server 2012 and 2008
- Protect mission-critical data more easily than ever
